PROFESSIONAL EXPERIENCE

Production & Systems

ADEN Immo GmbH Jan 2026 – Jul 2026

Digital Marketing & AI Automation Intern Berlin, Germany

- **Workflow Automation Architecture (n8n):** Designed and deployed 30+ production workflows bridging onOffice CRM, communication channels, and databases, saving ~350 hours per month across sales and operations.
- **Generative AI Integration:** Built production LLM pipelines (OpenAI API, Gemini) automating multilingual property listing generation (DE / EN / FR), lead qualification, and document data extraction with schema validation.
- **Programmatic SEO & Growth:** Engineered programmatic keyword research, localized landing page generation, and search performance pipelines, scaling organic search visibility in prime Berlin districts.
- **Data Operations & UX:** Analyzed traffic attribution and user conversion funnels via GA4 and Search Console; implemented webhook-driven lead routing and automated scoring for agents.

Independent AI Systems & Automation 2025 – Present

Designer & Builder Production Deployments

- **AI Virtual Home-Staging Pipeline:** Built an end-to-end multimodal pipeline converting empty interior photos into furnished real-estate visuals in ~33 seconds at sub-cent inference cost.
- **Autonomous B2B Lead Enrichment:** Engineered automated waterfall enrichment workflows in n8n & Python, extracting company hiring signals and applying AI relevance scoring.
- **Multi-Agent RAG Sync Engine:** Developed a bidirectional synchronization engine connecting Notion, Airtable, and local vector embeddings with automated critic-judge verification.
- **Automated Commerce Distribution:** Designed scheduled pipelines managing digital product releases and license delivery on Gumroad & Whop via REST APIs.
