LinkedIn: linkedin.com/in/manny-ruesch

Hybrid AI & Automation Engineer operating at the intersection of workflow orchestration, LLM engineering, and growth operations. Proven track record architecting **32+ production n8n workflows**, multi-agent AI systems, and automated data pipelines that eliminate manual operations. Expert in prompt chaining, API integrations, and programmatic execution. Fluent in **English (C1) and French (Native)**.

PROFESSIONAL EXPERIENCE

SYSTEMS & PRODUCTION

ADEN Immo GmbH Jan 2026 – Jul 2026
Digital Marketing & AI Automation Intern Berlin, Germany

- Workflow Automation Architecture (n8n):** Designed, deployed, and monitored 30+ automated workflows connecting onOffice CRM, communication channels, and internal databases, reducing manual team overhead by ~350 hours/month.
- LLM Pipelines & AI Integration:** Built production LLM chains (OpenAI, Gemini) for automated multilingual content generation (DE / EN / FR), lead qualification, and multimodal document extraction with structured JSON schemas and automated validation.
- Programmatic SEO & Growth:** Engineered programmatic keyword clustering, landing page generation, and content tracking pipelines, driving continuous organic visibility gains in competitive prime Berlin districts.
- Data Infrastructure & UX:** Analyzed traffic attribution and user journeys via GA4 and Search Console; deployed custom webhooks, automated lead scoring, and routing to sales brokers.

AI Systems & Autonomous Pipelines 2025 – Present
Independent AI Builder & Engineer Remote / Production

- AI Home-Staging Pipeline:** Developed a high-speed multimodal generative pipeline transforming empty interior photography into furnished listings in ~33s at sub-cent inference cost.
- Autonomous B2B Lead Enrichment:** Engineered an automated waterfall scraper in n8n & Python, discovering company hiring signals, enriching decision-makers via APIs, and applying LLM relevance scoring.
- Multi-Agent RAG Sync Engine:** Built a bidirectional synchronization system between Notion, Airtable, and vector embeddings using critic-judge verification loops for high-reliability outputs.
- Autonomous Commerce Pipelines:** Built and scheduled multi-channel distribution engines publishing automated digital products to Gumroad & Whop via REST APIs.

Prytanée Sportif Sept 2025 – Dec 2025
Youth Educator (Elite Athlete Academy) Pau, France

- Supervised academic monitoring and operational routines for student-athletes; coordinated cross-functional communication between coaching staff, administration, and families.

Bijouterie Aéllys Apr 2024 – Jun 2024
Marketing & Operations Intern Pau, France

- Hands-on CRM customer segmentation, omnichannel stock logistics tracking, and promotional copy across digital channels.

KEY IMPACT

32+ Workflows
ACTIVE IN PRODUCTION (N8N)

~350 h / mo
SAVED VIA AUTOMATION

~720 ops / mo
AUTOMATED BUSINESS OPERATIONS

TECHNICAL STACK

WORKFLOW AUTOMATION
n8n (Self-hosted & Cloud), Make, Webhooks, REST APIs, JSON data transformation

AI & LLM ENGINEERING
OpenAI API, Anthropic Claude, Gemini, Multi-Agent Architectures, Prompt Chaining, Structured Output

DEVELOPMENT & INFRA
Python (Scraping, Data, Automation), JavaScript / TypeScript, FastAPI, Docker, Linux VPS, Git

DATA & PLATFORMS
PostgreSQL, NocoDB, GA4, Search Console, onOffice CRM, HubSpot

EDUCATION

MSc Finance & Data Analytics
éklore-ed School of Management
2026 – 2028 · In progress

Academic Exchange
Sejong University · Seoul, S. Korea
Feb 2025 – Jun 2025
AI in Industry, Media Planning, Hospitality Management (Taught in English)

Bachelor Business & Marketing
éklore-ed School of Management
2023 – 2025 · Pau, France
Specializations: Finance, Marketing & Data Management

LANGUAGES

French	Native
